About eMentors

eMentors is an online mentorship program that pairs students and volunteers from a company in one-to-one mentorships. Halfway through the program, students and mentors meet in person.

"My students improved their writing skills; my students gained a positive view of what having a career is like; and my students received positive feedback from their mentor on life and future plans."

- Harding High School teacher

PROGRAM HIGHLIGHTS

- Students are more comfortable meeting their mentors and having organic conversation. Two years ago we struggled to have them talk for 10 minutes and now we have to cut them off after 30 minutes.
- Teachers are able to see the value in the global connection opportunity that virtual connection offers if they can't have an in-person Meet & Greet.
- BestPrep developed a new teacher and coordinator request system that was time efficient for both teachers and staff.

"The experience creates a sense of community engagement and opportunity for employee growth and reflection."

- Ameriprise volunteer
