

Welcome to BestPrep!

Who We Are

Established in 1976, BestPrep is a Minnesota-based nonprofit organization that prepares students to be career-focused and financially capable.

Our Programs for Your Students

Classroom Plus inspires students to create a vision for the future through career exploration via classroom speakers, career days, workplace tours (limited availability), and mock interviews (limited availability).

eMentors prepares classrooms of high school students with the skills needed for success in school, career, and life through weekly email exchanges with volunteer business mentors.

Financial Matters motivates students to make sound money management decisions and become financially savvy via industry professionals delivering classroom presentations on personal finance topics. Budgeting simulations are also offered upon request (limited availability).

The Stock Market Game™ (SMG) teaches students about economics, investing, and the importance of a long-term savings strategy. Student teams invest hypothetical money in stocks and mutual funds.

Minnesota Business Venture (MBV) ignites students' passion to achieve success and develop career aspirations for the future through a week-long business and career development camp held on a college campus. High school students work directly with business leaders to learn about career paths and gain personal finance skills.

Get Involved as an Educator!

Request Classroom Speakers

Request a speaker on a career, workplace skill, or personal finance topic for your class.

Arrange Mock Interviews

Provide one-on-one mock interviews for students during the school year.

Encourage Students to Enter a Competition

Students can write an essay to win a competition through The Stock Market Game™.

Promote Summer Camp

Promote Minnesota Business Venture for a true college and career readiness experience.

****School year programs are offered at no cost.*

Teach Teamwork & Investing Skills

Students grades 4-12 participate in teams to invest in The Stock Market Game™.

Connect Students with Mentors

Select one or more high school classes to participate in an online mentoring program.

Tour a Workplace

Arrange for students to see the workplace in action via tours (limited availability).

Plan a Budgeting Simulation

Boost students money management skills by requesting a budgeting simulation where students make decisions about daily expenditures.
