

TECHNOLOGY INTEGRATION WORKSHOP

The Technology Integration Workshop empowers educators with technology tools and business exposure to prepare students for today's workplace.

ABOUT

The Technology Integration Workshop (TIW) is a four-day professional development opportunity for K-12 educators to enhance their curriculum through the integration of 21st century technology skills. Participating teachers update a curriculum unit plan during the workshop and participate in a corporate job shadow to better prepare their students with the skills needed in today's workplace.

FEATURES

KEYNOTE & BREAKOUT SESSIONS are offered each day on a variety of topics from both educators and business volunteers. Popular topics:

- Free Web Gems
- MakerSpaces
- Coding
- All Things Google (Add-ons, Drive, Classroom, CollaborationProjects and more)
- Badging
- Gamification
- Virtual Reality

JOB SHADOW at a local company or business to see what the workplace is like today. You'll be paired with a business partners who will discuss today's workplace and how your curriculum can parallel the skills employers are looking for.

UNIT PLANS will be developed throughout the workshop incorporating the new technology learned.

BENEFITS

- Increase knowledge of educational technology through hands on breakout sessions and collaborative work time.
- Job shadowing a business or industry professional.
- Enhance a unit plan.
- Earn 28 CEUs while networking with other educators.
