

Unit Title: Careers Exploration Presentations

Grade Level: (example: 9, 10, 11, 12 or 7-8) 9

Subject Area: (example: Science, Physics; English, Short Stories) Social Studies & English

Duration/Length/Number of class periods: (example: 5 class periods) 8-10 class periods

Description: Students will research 3 or 4 possible future careers and present their learning using a variety of media or models

Established Goals (National, State, Local):

9.9.4.4 While respecting intellectual property, present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task (e.g., persuasion, argumentation, debate).

9.9.5.5 Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest

What Enduring Understandings are desired?

Examining one's own interests, skills and personal qualities can lead to more personalized and engaging career exploration.

What Essential Questions will be considered?

How do I discover topics that I am interested in and am passionate about?

How can the skills that I am good at help me understand my future career paths?

How can my best personal qualities help me to be successful in my future?

Students will know / be able to:

Students will reflect on their interests, passions and skills.

Students will consider which careers might match the interests and skills they identified.

Students will learn a wide variety of specific facts about 3-4 possible future careers.

Students will be able to present their learning using a variety of required and optional summative outputs.

Description	Formative summative introductory activity and learning activity. Check the appropriate box; one per row.	Fo rm ati ve	Su mm ati ve	Intr odu ctor y Acti vity	Lea rnin g Acti vity	Student Technology Used	ISTE Stand ard s
