

Unit Title: The Causes and Effects of the American Revolution
Grade Level: (example: 9, 10, 11, 12 or 7-8) 5th Grade
Subject Area: (example: Science, Physics; English, Short Stories) Social Studies
Duration/Length/Number of class periods: (example: 5 class periods)
Description: Students will use a variety of activities to learn about the causes and effects of the American Revolution.
Established Goals (National, State, Local):
Minnesota State Standard: 5.4.2.3.1

What Enduring Understandings are desired? I can learn how conflict can affect change in positive and negative ways. Students will engage in discussions and activities to learn more about what issues are worth fighting for and why.
What Essential Questions will be considered? What do you believe is worth fighting for? What do you think a Revolution is? What would make someone upset enough to cause a revolution? How does a conflict lead to change? How does it feel to be told what to do without your having a voice?
Students will know / be able to: Identify and analyze three causes of the American Revolution and their outcomes.

Description	Units must include at least one of each formative, summative, introductory activity and learning activity. Check the appropriate box; one per row.	Formative	Summative	Introductory Activity	Learning Activity	Student Technology Used	Teacher Technology Used	ISTE Standards
Google Form survey of what level of knowledge students have about the American Revolution				X		X
