

eMentors Virtual Connections

Activities

Please choose one relationship building activity & one career focused activity

Relationship Building Activities

1

Get to Know Me Slideshow

Students and mentors create “get to know me” slideshows using a template from BestPrep. Students and mentors will get to see pictures of each other as well as learn more about their favorite things, future goals, and hobbies/interests.

2

Small Group Virtual Meet and Greet

Small groups of student-mentor pairs (6-10 people total) will meet using a virtual platform. They will play icebreaker games to get to know each other and talk about career paths and life after high school. Requires all students to be virtually present at a specific date/time. Limit to classes of 30 students or less. **NOTE - if you choose to do a small group virtual Meet & Greet, you do not have to do a career focused activity.**

3

Social Styles

Students and mentors take a quiz to determine their social style using a worksheet from BestPrep. They write about their quiz results and how social styles play a role in school and the workplace.

Career Focused Activities

1

Career & Company Scavenger Hunt

Students learn more about the company and careers available at the company by completing an online scavenger hunt (using the company website and search engine). Students use email to answer the scavenger hunt questions.

2

Career Panel

Using an online platform, up to five employees representing various careers offered at the company share their schooling and career path as well as questions regarding their career. Requires all students to be virtually present at a specific date/time.
